INTRODUCTION

The Violet Fire is a Divine Activity. When you have sufficient faith and truly accept this concept as real you will be able to put into practice this Divine Alchemy of Transmutation. Upon consciously choosing to use and then experiencing this instantaneous process of purification you are immediately vested with undreamed of powers to assist you and others. More importantly, you are assisting in bringing forth beloved Saint Germain's Golden Age of Spiritual Freedom, thus fulfilling the vow we each made before descending onto the earth plane... pledging our life to the Cause of Freedom for all life.

To accomplish this task we must remain ever alert, and through the constant tenacious daily application of the Blue Flame and Violet Fire maintain ourselves in a state of listening grace through the harmony of our true being. The purer the Chalice of our consciousness, the more freely the gifts of our Causal Body can flow forth to enrich our world, as well as that of all humanity. The Causal Body contains within it the gifts and blessings from our Mother-Father God,

which each of us has accumulated during our various sojourns on earth. These gifts are then used for the benefaction of all life.

We must be ever mindful of the importance of governing, controlling and focusing our attention upon the positive aspects of life in order to attain mastery and freedom. Think of your attention as an electrical beam of energy or light, which flows from you into any condition which you focus your attention upon. As this takes place the energy sent out also flows back into your world with the same intensity and composed of the same properties as it was originally sent forth by you. Take for example, in order to truly heal, your attention must be focused on the Source of all Healing and not connected to or focused upon the discordant condition or physical manifestation.

The more you think of, and do, God's Will the more your Three-fold Flame will expand, and the center of your being will join with the center of all life, the Source of All Creation. Truly, this is the Will of God and the reason you came into being. Any service rendered by the Higher

Realms must flow through the consciousness of those who are yet in the world and serve as natural conductors for this energy. However, you can no longer be part of it by placing your attention upon the negativity within and around you. This service can only be accomplished through the constant purification of our four lower bodies and our ability to focus our attention upon the positive aspects of life. Also we must bear witness to this process of purification not by words but by every act of our daily living.

Our joyous obedience in the performance of God's Holy Will is the key to Freedom! Obedience to God is the loving cooperation with Good. Such obedience is a self-conscious voluntary activity entered into by a chela whereby he or she learns to master the energies of their emotional, mental, etheric and physical vehicles. Thus, the individual surrenders their outer self to the Divine I AM Presence and a loving acceptance *of* and cooperation *with* the directives of the Presence through the outer mind is created and they begin truly to externalize their Divine Plan in the world of form.

The purpose and objective of The Mercy Flame Service is to transmute, purify and release any and all discordant conditions throughout ourselves and the planet Earth, through the intensified cleansing of our four lower vehicles. Then, by relinquishing self and human will to the acceptance of a greater power, love and wisdom... I AM that I AM, we are able to accept God's Will and Divine Government within our personal worlds. Once this has been accomplished we can then expand and project this great gift out to all "governmental" activities, - individual, local, state, national, planetary and universal - which will then allow cooperation, peace, love, unity and freedom to flow freely into all life!

*

Historical Note

The Mercy Flame Service was first given on Saturday, March 25, 2000 as a Violet Fire Service in the Angel Room Sanctuary at Shamballa, Long Island, New York.

Beginning in May 2000 this service has been regularly given on the third Sunday of each month at 9:45 A.M. (EST) at Shamballa.

This book contains the complete service. (Notes for the Director or a group leader giving the service can be found on the right hand margins, underlined and in parenthesis.)

Single Candle Acolyte Service

All hail to Thee, Thou Mighty All-Pervading Light of the Universe, the Supreme Source of All Life I AM! We kneel within our hearts in recognition of the Light of the Cosmos as we draw forth this flame, representing the Three-fold Flame of God within our hearts!

(light candle)

INVOCATION

Beloved Presence of God I AM in us, the Source of all that is, everywhere present, anchored within each of our hearts; we love and adore you. We acknowledge you to be the owner and giver of our life, our intelligence, our substance, our ALL!

Angels of the Violet Fire, descend through the ethers now and blaze your sacred flames in, through and around us. Purify our consciousness with the transmuting fire, so that we may clearly receive the instructions and blessings from the great beings of light who serve the planet Earth.

Beloved Master Saint Germain, with all the love of our hearts, we invoke your radiant Presence to come, come and be with us now, as we offer ourselves as bearers of your Flame of Freedom to our Earth. As developing priestesses and priests of the Violet Fire, we ask that we might remain within your aura as we learn to be ever fuller expressions of spiritual freedom to all life.

We ask also to be in every instance, true exponents of God's Sacred Will. For this reason we now invite and invoke the luminous Presence of beloved Master El Morya, Chohan of the First Ray and Sponsor of The Bridge to Spiritual Freedom. As we receive your light of God's Will and Divine Government within our personal worlds, let us also expand and project this light into all governmental activities especially this Activity of Light to allow cooperation, peace and love to flow filling The Bridge with the gifts of unity, cooperation and freedom from this day forward.

We also call to our own Holy Christ Selves and those of all humankind to come forth now! Take full command of each outer personality until the divine plan for all is made manifest and eternally sustained. As always we make this call in God's Most Holy Name, I AM...

So be it, beloved I AM.

MERCY FLAME SERVICE

(Beloved ones, I welcome you
with all the love of my heart)

Let us take a moment to join our heartflames
with all lightworkers... and with everyone on this
planet... (pause)

(Thank you.)

We are now one body of light! Feel the joy of
service and the great, great love for all life fill
our beings as we prepare ourselves for the work
we will accomplish this day as the desire to do
the Will of God expands and expands through-
out our universe.

Part of doing God's Will is recognizing there is a
greater presence in action in our lives. Let us
now acknowledge this greater presence.

(Pick up your decree books
and turn to Decree 1-12)

Take a deep breath in and as you breathe out
feel the Presence of God in this room...

(as one voice...)

*

In the Name of the magnificent flame of life I
AM and the beloved Ascended Masters, whom I
have embodied to serve, I do now affirm that in
all areas of life and service:

I AM relinquishing self and human will! (3x)

As an embodied flame I AM...

I KNOW there is a greater power than myself in
action here (3x)

I KNOW there is a greater wisdom than myself
in action here (3x)

I KNOW there is a greater love than myself in
action here (3x)

I know this is the victory of the light in action
through me! I accept this as the truth in all areas
of my life and service. I AM that greater Presence
here in action... I AM that I AM...

SO BE IT! BELOVED I AM!

*

Breathe it in and breathe it out...

(Pleased be seated and put
your books aside for now.)

We will now gratefully acknowledge in our minds and accept in our feelings the living reality of our mantles of electronic light substance enfolding us, Shamballa, and The Bridge to Spiritual Freedom in a blazing aura of ever-expanding perfection.

From within this Cosmic Heart we feel the pulsation of the Flame of Divinity, the Presence of the Christ radiating through our consciousness and we accept the mighty armor of light and invincible momentum of faith so lovingly offered to us at all times.

We also invoke the added assistance of God's magnificent First Ray, especially beloved El Morya and Lady Miriam to keep this activity of light sustained around us and our world so that only the Will of God may manifest in all our activities, in all places and at all times for we know:

(repeat after me, three times...)

The Light of God is eternally victorious! (3x)

We live this day in God's Light! (3x)

God is in control wherever we are! (3x)

The harmony of our true being is our ultimate protection! (3x)

I now call upon beloved Archangel Michael. Beloved one, send your angels with the swords of blue flame and CUT US FREE! (3x) from all not of the light in, through, around or driven against us. Cut us free from every line of force that connects us with imperfection of any kind. Put your cross of blue flame in front of us, in back of us, on either side, above and below us and SEAL! (3x) us within your cross of blue flame, now and forever! We so decree it and accept it done, as God's Most Holy Name, I AM!

So far, we have acknowledged there is a greater presence here in action; we are enfolded in a protective mantle of light at all times, and the angels of protection are always present to cut us free from all not of the light and seal us within a mighty cross of blue flame, if we call them forth; let us now begin our work with the Violet Fire of Freedoms' Love. We will do this by first

listening to the following words from beloved Lord Zadkiel, the Archangel of the Seventh Ray.

*

Beloved ones, there have been in the ages that have come and gone, many ideas formed, many thoughtforms and patterns which have not been dissolved. Some of them remain within the etheric realm and what you call the psychic and astral realm, and they float around there.They would be dissolved except for the fact that disembodied individuals, some of whom originated those very ideas, feed their life energy into them and keep them alive.

These invisible focuses, which are imperfect, are kept alive by the very individual who created them - or those who have a similar rate of vibration, who - for one reason or another - would like to see them externalized in the world of form.

At the present time we are very busy at inner levels, disconnecting the souls of those individuals who, between embodiments, have had a certain affinity toward discord....They are taken into the Temples of Light and, as they are given

knowledge of the use of the Violet Fire within those Temples of Light, then there is nothing to feed these forms... The natural process of the Violet Fire, which is blazing through those Realms at all times will dissolve these forms before they can anchor into embodied lifestreams who have the way, the means and the power, temporarily, to again externalize them to give distress to mankind and the Earth.

There has to be a cause and core in the inner realms before there is a manifestation and effect in the world of form. If we can remove these vortices of disembodied souls from their affinity, mentally, emotionally and etherically, to discord of every kind, as we are trying to do, it is easy then to remove causes and cores of the discordant condition and replace it by a magnificent blazing cause and core of Cosmic Light.. This in turn filters down through the constructive people on any one of the Seven Rays into the outer consciousness and becomes something that is constructive which they can externalize.

*

Thank you for your words of wisdom and assistance beloved Lord Zadkiel. Let us now take the

opportunity to work with the lower vehicles of all humankind - to transmute, purify and release the discordant conditions throughout ourselves and the planet Earth. Take a deep breath in... and breathe it out... once more breathe in... and breathe out...

(We will begin with Decree 3-12, Fill My World With Violet Fire. I would like to make one change. After the first paragraph, there is a statement that we give 9x, let us change this to say: "Fill my world with Violet Fire until I manifest God's Desire!" Decree 3-12... As one voice...)

*

In the name of the almighty Presence of God which I AM and that of all mankind! beloved Elohim Arcturus and Lady Diana, Archangel Zadkiel and Lady Holy Amethyst, beloved Master Saint Germain and Lady Portia, and all serving the Seventh Ray of Violet Fire to our Earth. Great powers of purification and spiritual freedom serving on all the Seven Rays... come forth now with the angels of Transmuting Fire to intensify the Violet Fire to our sweet Earth as we make this call:

Fill *MY WORLD WITH VIOLET FIRE UNTIL I MANIFEST GOD'S DESIRE! (9x, quick tempo)

We thank you and pour forth our eternal gratitude for the instantaneous answer to this and every call to LIGHT.

AS GOD'S MOST HOLY NAME, I AM!

*

Breathe it in... and breathe it out... Breathe in... and breathe out... Let us now do some specific work in the astral realm...

(by giving Decree 3-13, when you have found it, please stand... Together...)

*

In the name of the Presence of God I AM, we call to you, beloved Lord Shri Magra and your angelic legions of light serving in the astral plane... we invoke your rays of violet lightning in the fulfillment of this decree:

*POWERS OF LIGHT! POWERS OF LIGHT!
POWERS OF LIGHT! COME FORTH NOW!

BLAZE THE LIGHT OF GOD THROUGH
OUR BEINGS. (3x)

EXPAND THAT LIGHT! (3x) to dissolve the shadows of human creation in the astral realm. (*3x)

We ask that you keep our call sustained, all powerfully active and ever expanding, until the emotional realms of this planet are only pure God qualities.

We so DECREE IT as an active co-server with the Great White Brotherhood.

AS GOD'S MOST HOLY NAME I AM!

*

Breathe it in... and breathe it out... Breathe in... and breathe out...

Finally, let us call upon the Law of Forgiveness.

(Decree 3-01 with love and
humility... Together...)

*

With all the power of the beloved Presence of God I AM, and the ray of eternal love of beloved Kwan Yin, Goddess of mercy and compassion,

I FORGIVE! I FORGIVE! I FORGIVE!

every person, place, condition or thing that may have wronged me in any way, at any time, for any reason whatsoever, and I now LOVE FREE all debts owed to me by life everywhere.

I do now invoke the law of forgiveness for myself and all mankind, for all the misuse of God's holy energy and the elemental kingdom since the beginning of time.

FORGIVE ME! FORGIVE ME! FORGIVE ME!

and as I am forgiven, I send forth a gift of love to balance all debts to life I have ever created which yet remain unpaid.

I AM grateful for the law of forgiveness, to love life free from the wheel of karma before it can act, manifest or longer be sustained.

It is done... as I AM God in action.
AS HIS MOST HOLY NAME I AM.

*

Breathe in this love and forgiveness... absorb it... and breathe it out - expanding and projecting it into the world around us. Breathe it in... and breathe it out...

(Please be seated and put
your decree books aside.)

Sealed in the Flames of Mercy and Forgiveness, find a comfortable position and center yourself through your breath... enter the silence of your heart flames, as we now visualize together.

*

The Sacred Violet Fire enters your crown chakra as an elixir of healing grace, and descends into your heart center. Through our Holy Christ Selves we will now direct this activity throughout our four lower vehicles by the power of the Holy Breath. Take a deep breath in and breathe out... breathe in... and breathe out.

Once more breathe in deeply, and breathe out. Direct the Violet Fire to enter every cell and atom of your physical body. Assimilate it, and feel the forgiveness of the Christ expanding throughout your physical structure, purifying it of any darkness which might block the Light of God within you. With every breath, expand this activity.

(Pause)

Breathe in... and breathe out... Breathe in again... and breathe out... Breathe in deeply and as your breathing returns to its normal rhythm, experience the purity of your physical body. Recognize it

as the vehicle created by your I AM Presence to express ITSELF in the world of form. Any functions or activities that are harmful in any way, that have been acting within your physical body are forgiven. Through the Grace of God, they are healed and purified now and forever! Breathe in... and, breathe out... Breathe in... breathe out...

(Pause)

Once again, breathe in deeply, and as you breathe out, direct the Violet Fire into your etheric body. Feel every electron within this vehicle receiving the blessed elixir of Divine Forgiveness and Forgetfulness.

(Pause)

Breathe in... and breathe out... Breathe in again... and breathe out... Breathe in deeply and as your breathing returns to its normal rhythm, know that true forgiveness brings with it forgetfulness of all past injuries and pain that your etheric body has carried with it through centuries upon centuries of time. Quietly, and without emotion or judgment of any kind, just let it all go, let it all go, let it all go and experience yourself as the forgiving and forgiven Presence of Christ! Breathe in....and breathe out... Breathe in....and breathe out...

(Pause)

Once again, breathe in deeply, and as you breathe out, direct the Mercy and Forgiveness of the Violet Fire into your mental body. It permeates every electron of your mental world.

(Pause)

Breathe in... and breathe out... Breathe in again... and breathe out... Breathe in deeply and as your breathing returns to its normal rhythm, it BLAZES through every erroneous belief that has ever lodged itself there in the past, transmuting all shadows and leaving your mind, mental world and brain structure FREE. You are now cleared of any idea which makes you feel a sense of separation from your Presence, or from any part of Life. All is forgiven in your mental world. Breathe in....and breathe out... Breathe in....and breathe out...

(Pause)

Breathe in deeply once again, and on the outbreath, direct the Elixir of Violet Fire into your feeling world - your emotional body. It enters every electron of your feeling body, purifying and transmuting all residuals of negativity.

(Pause)

Breathe in... and breathe out... Breathe in again... and breathe out... Breathe in deeply and

as your breathing returns to its normal rhythm, all fear, doubt, judgment of yourself or of others, just flows away from you in waves of Violet Light. You are forgiven, and you experience a sense of freedom that has never been possible before. You know that nothing stands between your Beloved Presence and your feeling world! The Peace of God follows this mighty wave of forgiveness throughout your emotional body. Breathe in....and breathe out... Breathe in....and breathe out...

(Pause)

Now, having fully accepted forgiveness for yourself, and having extended this gift to all life, expand your deep feeling of Peace, Harmony and Purity into the Planet. It enters the Heart Flame of the Earth, and as it rises through the body of the Planet, all Elemental life is washed with its freeing action. The Flames burst through the crust of the Earth, passing through the bodies of all humankind. They, too, now experience the Peace of Forgiveness. The Flames enter the astral realm, bringing their healing, freeing Love through all life that is bound there. All vortices of painful memories around the Earth are bathed with the Violet Fire.

All freed energy returns to the Heart of the Sun, beyond the Sun, beyond the Sun, to be repolarized and released to the purified consciousness of the Earth once more.

Knowing that you can energize this treatment of Light at any time you wish, allow your consciousness to return gently to this Sanctuary. Through work such as this, know our Planet will ascend into a new and higher vibration, and that the time will soon come when the Planetary Three-fold Flame, and those of All humankind will be plainly visible to the sight of all, and we will walk the Earth once more in the tangible Presence of the Masters of Light and the Angelic Host!

SO BE IT - BELOVED I AM!

Continue to breathe rhythmically, as you slowly begin to return your attention to our physical sanctuary. Continue to remain centered within the Sacred Violet Fire. Take a deep breathe in... and breathe out. Take another breath in and as you release your breath...

(gently open your eyes and reach for your decree books.)

Let us seal ourselves and all life on Earth within mighty pillars of Violet Fire by Living Within the Violet Fire.

(Decree 3-10... With energy!)

*

OH, THOU BELOVED ASCENDED MASTER SAINT GERMAIN, divine example of spiritual freedom to our Earth, we love you!

SEAL! SEAL! SEAL us and the entire ten billion lifestreams evolving on our Earth, and every part of life, in a mighty PILLAR of your VIOLET FIRE of LOVE and FREEDOM! BLANKET the EARTH and its atmosphere in living VIOLET TRANSMUTING FLAME so that every part of life may live, move, breathe and have its being truly in that VIOLET FIRE of your love that sets them, our Earth and every living thing free right now, for the VIOLET FIRE of FREEDOM'S LOVE ALWAYS MANIFESTS PURITY, FREEDOM AND PERFECTION... and

I AM THAT VIOLET FIRE! (9X)

*

Know it! Feel it! Accept it!

You are the Violet Fire, in action in the world of form! Breathe it in... and breathe it out... Breathe in... and breathe out...

(pause)

As the Violet Fire has now purified and prepared the planet by blanketing our Earth and its atmosphere in living, loving violet transmuting flames - visualize the sacred Holy Grail, the Golden Cup of Cosmic Christ Consciousness, through which flows God's Perfect Will, firmly anchoring itself into the planetary Threefold Flame and into the heartflames of all human-kind. As this takes place see the spiraling action of the brilliant royal blue and crystal flames as mighty waves of God's Will gently and lovingly flow into all life on planet Earth.

Breathe in.... and breathe out.... Breathe in again... and breathe out, as we now prepare to work with a breathing statement to expand the Flame of God's Holy Will throughout the Earth.

Breathe in... and breathe out... Breathe in... and breathe out...

*I AM inbreathing...

beloved El Morya's Flame of God's Holy Will now made manifest on planet Earth.

I AM absorbing...

beloved El Morya's Flame of God's Holy Will now made manifest on planet Earth.

I AM expanding...

beloved El Morya's Flame of God's Holy Will now made manifest on planet Earth.

I AM projecting...

beloved El Morya's Flame of God's Holy Will now made manifest on planet Earth.

(*3x)

Breathe in... and breathe out... Breathe in... and breathe out... As you let your breathing pattern return to its normal rhythm.

You now visualize the sacred Holy Grail, the Golden Cup of Cosmic Christ Consciousness, through which flows God's Perfect Will, firmly anchoring itself into the planetary Threefold Flame and into the heartflames of all human-kind. As this takes place see the spiraling action of the brilliant royal blue and crystal flames as mighty waves of God's Will gently and lovingly flow into all life on planet Earth.

Please continue to remain centered as we now receive the following message from the Chohan of the First Ray and spiritual founder of the Bridge to Spiritual Freedom, beloved El Morya.

*

I could not but smile at the Maha Chohan's gentle discourse wherein he offered gratitude and thanksgiving for the invitation to step across the threshold of man's consciousness and accept the questionable "hospitality" of association with the outer self.

Since our introduction to "society", we have been subjected to these "invitations", which would be laughable if so much did not hinge upon them.

The first timid overtures to us from the "bold-est" spiritual pioneers went something like this...
"I say! Are you there? Well, if you are, please come in... but my world is in perfect systematic running order. Please don't disturb anything....It would be 'jolly' if you would stay awhile and tell me all about myself!"

Now, on the face of it, We cannot even think of a person without disturbing the rhythm of their

worlds, let alone stepping over the threshold into actual association with them; so the door is closed before we can even acknowledge the invitation, if you can call it such!

On the rare occasion when we were permitted to answer and enter the world of the chela, of course *things began to happen*. The living battery of our energies, no matter how they are muted, energizes everything it touches. Thus, when we enter the consciousness, the rearrangement of the world of the student begins. It is as uncomfortable as all house moving, renovations, and improvements always are to the self which enjoys stagnation. Then - the *Reaction!* Disappointment in the guests, and usually "forcible eviction" - and thus closes the "sweet association" between man and his Masters!

Ah, the "dweller on the threshold" is well known to the Sons of Heaven. When we receive an earnest call from the hearts of men, we consider well the individual "dweller" through whom we must pass to have access to the world of the chela.

So much for my humorous reactions to the Maha Chohan's kindly thoughts... and now to work!

You will always find the "Dweller on my Threshold" welcoming you - hearts, and souls, and bodies!

*

We Thank You, beloved Master Morya! Truly, we love you, and we are grateful for your love, patience, wisdom, and especially - your enduring friendship, so graciously extended to us for so many centuries of time!

Master El Morya's words usually tend to be on the "strong side", as we all know, but his love for us dictates the need to speak strongly, and get us going on our spiritual paths. Let us now do some serious work on our "dwellers on the threshold!"

(Decree 11-06)

Let us give the power of our love and attention to the Sacred Christ Flame in our hearts - further transmuting our four lower vehicles with the Sacred Violet Fire.

*

My dearly beloved, my divine essence... I love and adore you. Shine through my every effort at becoming ONE WITH THEE. Oh, flaming Presence of light, let the gift of divine love which is yours alone to give, flow through me to set life free. I ask that I might be love's open door.

And as I accelerate my journey toward eternal oneness with you, I consciously draw back to myself all my own energies that I am so desirous of loving free. Help me, oh flame in my heart, to love myself free... all returning energy... as I am about my Father's business of loving all life free. In thy name, I now accept that in all my day to day experiences:

I AM reclaiming all my energies back into the heart of love. (3x)

I AM the Violet Fire in action, loving me free. (3x)

I AM grateful to the sacred Violet Fire, the most powerful aspect of love that instantly transmutes all outstanding energy back into perfection.

I AM again made whole with thee,
AS GOD'S MOST HOLY NAME... I AM!

(Thank you)

Having prepared ourselves as channels of Light, let us intensify the activity of our I AM Presence by giving it full dominion over our outer self.

(Decree 11-12. Together...)

*

Mighty I AM presence, take command of this outer self this day.

Take command of my every thought, feeling, spoken word, action and reaction.

Produce your perfection, hold your dominion.

Put and keep me always in my right and perfect place.

Show me the perfect thing to do and through me, do it perfectly.

SO BE IT, BELOVED I AM.

*

Please center yourself once again through your breathing, and once more feel the dynamic activity of the Mantle of Light around you as you receive these words.

"To attain that inner peace of heart and spirit which nothing can disturb, seems a very difficult task to the earnest student at times, and yet it becomes absolutely necessary if permanent progress on the path is to be made. With the world in such unrest, the student must have a firm anchorage to keep from being swept into the tide of human creation and chaos.

Each individual has created his personality through centuries of living, having chosen to take God Energy and mold it as he chose. Now to reverse the energy, he must allow the God Self 'I AM' to once again take command. With no uncertainty the personal self must be placed back into the arms and control of the God Self and held there until the dynamic use of the Violet Fire has purified and dissolved all but the Divine Plan."

It is suggested that first thing in the morning, you center your attention on your Divine Presence within, and hold the following thoughts.

(One by one, repeat
after me three times...)

I AM is the Presence of God ACTING in my world!
(3x)

I AM is the Presence of God REMEMBERING my
past! (3x)

I AM is the Presence of God THINKING through
my mind! (3x)

I AM is the Presence of God FEELING through my
emotions! (3x)

I AM is the PEACE Commanding Presence of God!
(3x)

I AM is the ONLY Presence acting through Every-
one I Contact! (3x)

(Thank you!)

Each of you is urged to recall these affirmations,
or their equivalent, each day, so as to become
centered, and remind ourselves of our true iden-
tity and purpose!

All of the Ascended Masters, and all thinking
people upon the Earth are concerned with PEACE.
Beloved Master El Morya, with whom we have
been working with, represents God's Holy Will.
He also has a special interest, and that is gov-
ernment.

It is out of adequate and peacefully-qualified
government that world peace will arise. When
we hear the term 'government', most of us think
of the country in which we live, and to which we
pay taxes. However, there are many kinds of gov-
ernment, and El Morya is an expert guide and
teacher as to our needs and requirements in all
of these specific areas.

The first area of government is Self Government.
Without adequate self-government, there is no
possibility of moving forward into the collective
needs of the world and the galaxy of which we
are a part.

(Please pick up the decree you
found on your chairs and ...)

Let us Blaze God's Will through each of us, all
governments and governmental leaders, all mili-
tary personal and military leaders, and all reli-
gions and religious leaders.

(With energy...)

*

In the full power and authority of the beloved Presence of God I AM... beloved Ascended Masters El Morya and Lady Miriam!

COME NOW! COME NOW! COME NOW!
and BLAZE! and BLAZE! and BLAZE!

The cosmic flame of God's will through me and clear away any destructive activity of my own free will which might rush in to impede my conscious desire to do GOD'S WILL!

COME NOW! COME NOW! COME NOW!
and BLAZE! and BLAZE! and BLAZE!

The cosmic flame of God's will through all governments and governmental leaders, all military personal and military leaders, all religions and religious leaders and clear away any destructive activity of their own free will which might rush in to impede their conscious desire to do GOD'S WILL!

Help us to become and remain obedient to the Law of Harmony and BE GOD in ACTION... at all times!

I ACCEPT this call FULFILLED...
AS HIS HOLY NAME... I AM!

*

(Finally, turn to Decree 8-09)

Let us now Use God's Resources According to God's Will to assist in bringing into manifestation beloved Saint Germain's Golden Age of Spiritual Freedom.

(With love and energy...)

*

In the name of the almighty Presence of God I AM everywhere present, and the creative fire pulsating in every human heart...

Beloved Lord Maha Chohan, beloved Lord Lanto, beloved El Morya, beloved Saint Germain and all connected with the focus of light over Washington, DC and that of divine government... the ascended beings from every retreat helping the Earth at this time...

We invoke your full gathered cosmic momentum of love, wisdom and power... your Presence in action, to fulfill this call with every breath and heartbeat...

*I AM THE RESURRECTION AND THE LIFE of all the resources, wealth, and money of the world, within the governing power of all who are willing to do God's will to help bring in beloved Saint Germain's golden age; now made manifest and sustained by grace. (*3x)

The scales of justice and freedom shall now be balanced, in the sacred name of beloved Saint Germain and beloved Lady Portia.

WE SO DECREE IT AND ACCEPT IT DONE!
AS GOD'S MOST HOLY NAME I AM.

*

(Thoughtform for 2000)

Listening with our hearts and following the Star of Christ Consciousness, beloved Saint Germain's Violet Fire of Freedom's Love has now truly become a manifest reality throughout this planet.

As we fully accept the Earth into our keeping, the light of a thousand Suns floods the world, enfolding the entire Human Family within the joyous, buoyant, raising, spiraling power of the mighty Ascension Flame.

With this light of the Sun, beyond the Sun, beyond the Sun, that which is limitation and shadow, shall be no more as peace, unity, and brotherhood reigns supreme from this day forth!

*

(Please join in giving the Theme for this year 2000... Together...)

*I AM ONE with all life!
I AM ONE with all light!
I AM ONE with all love!

(*3X)

I AM an upwardly rushing force of divine vibration and consciousness which manifests in my perfectly balanced heartflame - the true center of my being! This flame, ever-expanding outward, is the pure electronic light substance of my aura. Constantly spiraling around me, it draws an ever higher vibration of God's Cosmic Energy to me.

I AM THE HAND OF GOD
MOVING ACROSS THIS PLANET!
I AM THAT I AM!

*

As the Hand of God moving across this planet and enfolded within the light of The Presence of God I AM; we the chelas of The Bridge to Spiritual Freedom, lift up our consciousness in eternal friendship to our mighty co-servers in the Great White Brotherhood. With hands clasped in unity of service, we call forth the most powerful activity of the Violet Fire to BLAZE (3x) through us now:

We are a majestic fountain of Violet Fire, purifying the atmosphere of the Earth, transmuting all effluvia and restoring the pristine sweetness of the element of air!

We are a majestic fountain of Violet Fire, blazing through the oceans, rivers, and streams of the Earth, until the water element flows clear and clean once more!

We are a majestic fountain of Violet Fire, purifying the element of earth, restoring the balance of minerals until the ground is once more a rich, fertile habitation for elemental life!

We are a majestic fountain of Violet Fire, blaz-

ing from within the purified planet Earth, enfolding all humanity in a compassionate cloak of mercy, forgiveness, transmutation and freedom in the light!

SO BE IT, BELOVED I AM!

Before drawing this service to a close please remain centered within the silence of your hearts and receive these words from beloved Saint Germain.

*

"Lasting balance can only be attained within the heart of the great, great Silence. Only then can be found the strength, love and wisdom needed to lift the vibration of your Threefold Flame into harmony with God. As you allow yourself to be lifted by your inner Christ Consciousness into the heart of your Presence, the perfect balance and harmony you seek becomes a manifest reality! In this way your spirit evolves into a higher vibratory action, moving forth to enfold and bless all life."

As the radiance of Violet Fire intensifies and expands around you, your world of expression increases and you are enfolded in the flame of transmutation. Have faith in the Violet Fire and it will provide you with the answer. Remember, you are an integral part of your I AM Presence and through the power of your attention, you can reach the inner most treasures of your causal body. The divinity in you blesses itself in all others and confirms the unity of all life! As the Violet Fire becomes a conscious and constant emanation from your heartcenter, be assured that you are drawn ever-closer to my heart and I to yours.

*

Thank you beloved Master Saint Germain for your gentle reminder this day. Help us to always remember to use the Violet Fire in every aspect of our daily lives.

Beloved ones, thank you for your dedicated service of love and light this day and may that which you have given, return to you a thousand fold and more.
